

Sports Pitch Decals for TS201*

This is a collection of decals of pitches for TS201*. There are a selection of Football (soccer) pitches, Rugby Union, Hockey, Fussball(5-a-side football), Tennis Courts, and Cricket. They all come with summer and winter textures.

Copy the "Assets" folder into your "Railworks" folder, then in the TS201* Route Editor you must enable "Wotawally" as a provider. You can then find all the pitches in "Scenery - Foliage and Water" All pitches have the prefix "WW_" so will be at (or near) the end of the list. As they are decals they lay directly onto the terrain surface and follow the contours so the ground should be reasonably level. The ground around the decals should then be painted to compliment the textures of the pitches where required.
